Panelist

Senior Vice President
Head of Technology & AI
Sberbank

Part 1: Panelist Remarks

- Ms Yuliya Shlychkova
- Mr Anthony Carmoy
- Mr Ward Duchamp
- Mr Andrey Belevtsev

Part 2: Panel Discussion

Theme 1 - Frontier technologies to build trust in Agentic AI

- **Question 1:** Do you feel that the insights from Sessions 1 to 3 have helped us build a common understanding of what trust management for Agentic AI should look like?
- **Question 2:** Which frontier technologies do you see as the most promising solutions for building trust in Agentic AI?

Part 2: Panel Discussion

Theme 2 - Action Pathways and Collaboration

- **Question 3:** Among all the promising technologies we just mentioned, where exactly should we focus our primary efforts moving forward?
- **Question 4:** Looking at the standardization landscape, what specific areas of Agentic AI trust management should ITU-T prioritize addressing first?
- **Question 5:** In what ways— through what mechanisms—can Standards Development Organizations (SDOs) and Regulation bodies collaborate and build capacity to advance trust management for Agentic AI?

THANK
YOU
